Customer Reviews

This is an excellent book for anyone wanting to teach their children more about Seoul and what Korean life is like, and places to visit. It is especially helpful for people who are planning on visiting or moving to Seoul with their children. My kids loved it and it was very informative and comforting for them to know what to expect. Great book!

Thought this was ok. A bit dense for my 5 year old and strange faces for the tourists. Lots of information.
