The Tropical Rainforest: A World Survey Of Our Most Valuable Endangered Habitat : With A Blueprint For Its Survival

Synopsis

25 years studying the forests of Australasia, Central and South America, Africa and India, have resulted in this survey of the world's most valuable and endangered habitat. The nature of the forests and the ecosystems within them are defined, as are the threats and consequences of extinction.

Customer Reviews

Mr. Newman has written one of the great and comprehensive rainforest books on the market. The book is loaded with great pictures from Mr. Newmans travels around the world. His book is research based but he explains it in a manner that everyone can understand. It is well organized. Each chapter has a differernt topic that breaks down the complexities into a much simpler discussion. He also outlines his beliefs in how society can save the rainforests. It is an outstanding book, one of the few everyone should own on the topic.
