Primary Health Care In Cuba: The Other Revolution

Synopsis

As health care concerns grow in the U.S., medical anthropologist Linda M. Whiteford and social psychologist Larry G. Branch present their findings on a health care anomaly, from an unlikely source. *Primary Health Care in Cuba* examines the highly successful model of primary health care in Cuba following the 1959 Cuban Revolution. This model, developed during a time of dramatic social and political change, created a preventive care system to better provide equity access to health care. Cuba's recognition as a paragon of health care has earned praise from the World Health Organization, UNICEF, and the Pan American Health Organization. In this book, Whiteford and Branch explore the successes of Cuba's preventive primary health care system and its contribution to global health.

Book Information

Paperback: 150 pages

Publisher: Rowman & Littlefield Publishers (April 16, 2009)

Language: English

ISBN-10: 0742566358

ISBN-13: 978-0742566354

Product Dimensions: 6.1 x 0.4 x 9.2 inches
