Customer Reviews

I don't understand what "a customer" is saying referring to "the British flag" on the cover. Huh? The cover is clearly illustrated using draped panels and a bell, stand, cushion and ringer. Emblematic of Shinto, which uses bells and tones to purify and to call in the kami. A Popular Dictionary of Shinto is an excellent resource, collating the terminology of Shinto in a concise book. Like all good dictionaries it is an education on its subject, providing the annotations which will enable students and enthusiasts of Shinto and/or Japanese culture, history and society to learn its spiritual terrain.

If you are interested in learning about (or more about) Shinto, this book is well worth the price. It may be a dictionary, but it is useful for far more than just looking up words occasionally. I am learning from every entry, and I love it so much I am actually reading it straight through! I have many books on Shinto, but with this dictionary, I am learning things those books did not even touch on. I am gaining a nice overall picture of the Shinto customs and ways, and I am able to use this book as a springboard for learning more. If you want to know more about a topic, on the Kindle, just click the word and search Wikipedia or Google and you'll find some beautiful photos of the shrines and

shrine architecture, ritual items, festivals (matsuri), and so on. Go to the websites for the particular shrines discussed in the dictionary, and you'll start to get a much better understanding of shrines than you would just reading a book about Shinto shrines in general. What is great about the dictionary is that it has entries for Kami and shrines that are not normally even mentioned in other books about Shinto. This is one of my favorite purchases so far on the kindle, even though it was a bit pricy. It is worth it.

This is a wonderful book. It's very enlightening and quite a nice addition to the books I have. Thank you.

A helpful book for individuals interested in learning about Shintoism, or Japanese culture.

I thought that the book was great, I learned so much and I was glad that I was able to read it. My friend owns it and soon I will buy it... Probably today or tommorow. Shinto is my religion and I am eager to learn more about it. As much as possible.

This book is very informative about the decline of Western educational standards but doesn't say much about Japan's nationalist religion. What's with the british flag on the cover?
