This book was very informative and I truly enjoyed it and found it very easy to read. It appears as a school type book and in this sense being also for young adults. The only drawback is the book is only 100 pages and if it were in smaller print in a paperback, it would probably be only 60 pages or so, but nevertheless, it is very enlightening to the whole Chicago Seven Political Protest Trial. The book sets the stage, very briefly describes the Characters, Abbie Hoffman, Jerry Rubin, Rennie Davis, Lee Weiner, John Foines, Dave Dillinger, and Tom Heyden, also The head of the Black Panthers, Bobby Seals. Then there is the defense attorney, William Kunstler, the Chicago Mayor Richard Daley, the Prosecutor, Thomas Foran and the Judge Julius Hoffman. There is no such thing as a completely objective book, however, it appears this book is as objective as it can get and you can decide who is right and who is wrong - in your opinion. Personally speaking, I am no revolutionary, but I take the side of the seven to a major degree, at least their political ideas liberal freedom, as Che Chevara, however I am my own entity with my own value system. And their radicalness was also a sign of the times, times I think that at that time many person's minds had their perceptions opened from the use of psychedelics, enabling American society to have a large part of its populations of a higher conscious awareness level beyond the absolutism of political ideology in the flexible liberal element of free movement. And this is opposed to the stagnant political concepts of complete identification with the ego reality, and I'm sure especially to the Right

conservative domination and power holders we have today.
